TIME TO TACKLE HUNGER

Let Us Know: You can always email FM-OHS@virginia.edu if you have suggestions or story ideas. Now there's a new way to get in touch — **Let us know** by answering a few quick questions.

DIVERSITY, EQUITY & INCLUSION

Language Matters!

FM OHS is required by [OSHA standards](#) to provide training in a language the employee understands. 20% of FM is Multilingual. Over 50 FM employees are currently taking language classes.

Language *matters* to us at FM. Here are just a few ways to access resources and learn more—

- Install the Globo Interpretation App
- [Learn more about Globo + FM here](#)

- Ask about classes, interpretation and translation options at FM
- [Click here to submit your request](#)

- [Learn more](#) about the UVA Cornerstone and FM DEI partnership to discover the many languages represented across FM.

Add your audio name pronunciations, chosen names, and gender pronouns to common tools (like your email signature!) to prevent mispronouncing, misidentifying, or mis-gendering. [Click here to learn more.](#)

Questions or comments about DEI updates? FM-DEI@virginia.edu

APPRENTICESHIP

What's New: Application Opens Mid-March

Three UVA FM Apprenticeship applications will be posted via Workday mid-March through April 30:

- ★ **Multi-Craft Trades Apprentice:** Multi-craft apprentices will complete two professional certifications in four years: After two years, apprentices are eligible for their **maintenance mechanic certificate**. The final two years of the apprenticeship are spent specializing in a single trade: **electrical, plumbing, or HVAC maintenance**.
- ★ **Single-Craft Mason Apprentice:** Apprentices will spend all four years of their apprenticeship training in masonry.
- ★ **Single-Craft Carpenter Apprentice:** Apprentices will spend all four years of their apprenticeship training in carpentry.

If you have questions about the application or process, please email

FM-Apprenticeship@virginia.edu.

MAINTENANCE MECHANIC

CARPENTRY

ELECTRICAL

HVAC

PLUMBING

MASONRY

COMING SOON: INSTRUMENTATION

Recruitment for the Next Cohort of Apprentices is Underway

Do you know of a classroom or group that would benefit from learning more about how to become a UVA Apprentice? The [UVA FM Apprenticeship team](#) is reaching out to local schools and workforce development groups to recruit applicants for the next class of apprentices. Outreach includes school visits, job fairs, and/or customized workshops. Expected onboarding for this group will be in summer 2024. Email FM-Apprenticeship@virginia.edu for more information.

** Employees must have their supervisor's permission to attend during work hours.*

Reach out to [Occupational Training](#) or the [Apprenticeship team](#) if you are unable to attend and want to learn more.

OCCUPATIONAL HEALTH AND SAFETY

Tools for Your Toolbox: Resilience & Mental Health

When something goes wrong, do you tend to bounce back or fall apart? If you lack resilience, you might get stuck on problems or feel like a victim. You might feel burdened or turn to ways to cope that aren't healthy, such as drug or alcohol use, eating disorders, or risky behaviors.

When you have resilience, you harness the inner strength that helps you rebound from a setback or challenge. However, resilience isn't about putting up with something tough or coping on your own. In fact, being able to reach out to others for support is a key part of being resilient.

[Click here for more information and tips](#) on building resilience!

Contact FEAP for additional resources: UVAFEAP.com or at 434-243-2643.

Did You Know? Lab Safety Week

Lab Safety Awareness Week is February 12-16 and recognizes the successes of laboratory health and safety programs and offers information and ideas on how to keep faculty, staff, and students safe. Lab safety impacts UVA FM employees when they are servicing equipment, cleaning, or renovating lab spaces. Staying current with training, and identifying potential hazards is important. Remember to be mindful of the signage in the lab, and make sure the room has been decommissioned before starting any renovation work!

Reach out to [UVA EHS](#) and [FM-OHS](#) when you have any questions or concerns. As always, performing a [job hazard analysis](#) is an important first step before performing work so you have a safe plan from which to work.

Examples of equipment and processes to be aware of include:

- Fume hoods
- Biological safety cabinets
- Glove boxes, secondary containment for tanks and containers
- Neutralization systems for wastewater discharges
- Air cleaning systems

OCCUPATIONAL TRAINING

NEW EMPLOYEE ONBOARDING

Joining FM as of January 29

(listed from left to right)
