Signs made simple.

UVA Facilities Management produces and installs COVID-19 safety signage in common spaces across Grounds. Safety signage may include reminders about social distancing, room capacity, personal hygiene and disinfecting.

Signage installations will be based on need and use of each space. This initial service — based on University guidelines and best practices — will be provided at no cost to departments.

Additional COVID-19 products available

Facilities Management is offering additional safety products — including custom acrylic protection shields — for spaces such as lobbies and reception areas as well as additional signage options. The products available are listed in this catalog and are offered at an additional cost.

To purchase additional products, please submit a work order request through the [FM Customer Portal](#). Include the sign item number and quantity in the description section of the request form.

PROTECTION GUARDS

Acrylic protection guards create a physical barrier in close quarters.

The FM Sign Shop can produce standing protection guards, pictured below, as well as a hanging version.

MATERIALS:

- Free-standing protection guards are made from ¼ inch thick acrylic. Clear and opaque acrylic are available. We have material in stock and ready to produce to fit your space.

COST:

- The average cost for free-standing guards usually runs between \$50–\$100, depending on sizing.

MEASUREMENTS:

- The Sign Shop can meet you on-site to take measurements of your area, or you can send measurements with your order. The average shield size runs from 24" by 24" to 36" tall by 48".

ORDERING:

- Please contact Teresa Dillard to place your order: (434) 243-0366.

HOW TO USE:

- Visit the [UVA guidelines](#) on the use of protection guards across Grounds.
